

Pavol Donko

Curriculum Vitae

Experience

Work

2023–present **Senior Product Designer**, *Kontent.ai*, Brno.

- Improving the product from start to finish.
- Overseeing the design system.
- Accessibility advocate.

2013–2023 **Lead UX Designer**, *Kentico*, Brno.

- Product - Kentico Kontent (now Kontent.ai).
- Focused on solving user problems, enhancing the design system, and advocating for inclusive products.
- My most recent project involved a comprehensive **product redesign**. As the Lead UX Designer, I was directly responsible for ensuring product consistency, refining the design system, and enhancing the overall user experience. This project was a collaborative effort alongside fellow designers, researchers, and developers.

2013–2015 **UX Designer**, *Mavenir*, Brno.

- Projects - various telecom dashboards.
- UX team of one - I was responsible for the whole design process and learned a lot along the way.
- UX research, design, and evaluation.

2011–2013 **UX & UI Designer**, *Celebrio*, Brno.

- OS for elderly people.
- I co-founded this start-up with friends during studies.
- UX and UI design (surveys, qualitative interviews, personas, paper prototyping, high fidelity prototyping, usability testing, heuristic evaluation).
- Team leading and mentoring (I led team of five designers).

Other projects

2018 **Tutor and mentor of comprehensive UX course**, *Czechitas*, Brno.

- The course consisted of eight weeks of talks, homeworks, and coaching. I was a teacher in two of them - design principles and usability testing.

2014 **Tutor of practical UX course**, *Masaryk University*, Brno.

- In two days, we went through the whole UX design process and tried several methods with my supervision.
